

# IPEM conferences

## ***Online Monitoring of Radiotherapy***

**Wed 25th April 2018, Manchester**

*Organised by IPEM's Radiotherapy Special Interest Group*

This meeting which will explore the current and future patient benefits of implementing all types of online monitoring techniques and technologies for Radiotherapy Treatment, providing an opportunity for those working with relatively new systems to share details as well as manufacturers talking about their systems.

The meeting aims to provide a stimulating forum for the exchange of ideas regarding online monitoring and how it is developing, as well as how it fits in within the wider spectrum of QA methods.

It also offers an opportunity for users to learn how to overcome any issues they are encountering so they can fast track implementation.

Delegates will also receive information about the different commercial and in-house systems that have been developed to support online radiotherapy treatment monitoring and to expand ideas on the intended use of commercial monitoring systems to new novel applications within radiotherapy.

**Target audience:** Radiotherapy Professionals  
(Scientific/Technical, Radiography, Oncologists)

**Call for Papers deadline: 31st January 2018**  
**Programme available February 2018**

**Online registration open now**  
**Registration deadline: 11th April 2018**
